Experience

Adecco – Continuous Improvement Intern | Mar. 2025 – Present | Argentina | Hybrid

Responsibilities:

- Analyzed key performance indicators (KPIs) to identify process bottlenecks, proposing solutions that have improved operational workflow efficiency.
- Designed and deployed automation workflows using Microsoft Power Automate and n8n, significantly reducing time spent on manual administrative tasks.
- Collaborated in strategic meetings by providing data-driven analysis to support team decision-making.
- Documented and standardized procedures to ensure process consistency and quality.

INMO – Full-Stack Web Developer | Mar. 2022 – Dec. 2022 | Argentina | Hybrid

- Developed a real estate management platform, leading the front-end implementation with React.js and Next.js to build an intuitive and responsive user interface.
- Implemented user authentication and real-time data management by integrating with Firebase (Authentication and Firestore).
- Managed the complete project lifecycle using JIRA for sprint planning and task tracking, ensuring the timely delivery of key features.

Technical Skills

- **Programming Languages & Paradigms:** C | C++ | C# | Python | OOP | Layered Programming | Java | LINQ | ASP.NET | HTML | CSS | JavaScript | React Native.
- **Project Management & Methodologies:** Agile methodologies (Scrum & Kanban) | Waterfall | Rational Unified Process (RUP) | Risk management | Stakeholder management | Use of project management tools (JIRA, Asana, Trello).
